

1st John # 34

“The Royal Family Honor Code”

1st John 2:9-11; Ephesians 3:16-19; 4:15-17

The Royal Family Honor Code is right thinking, resulting in right motivation, further resulting in right function.

And for this to take place, there must be maximum biblical truth in the soul of which, application requires the filling of the Holy Spirit and includes advance to spiritual maturity as the objective.

The justice and fairness of God make it possible for every believer who desires, to make it to maturity.

When learning and applying biblical truth occurs in the life of the Church Age believer, the darkness or previous influence of the cosmic system is passing away, disappearing or being destroyed.

The darkness is replaced by the light of Word of God which is already shining in our souls through our daily abiding walk with Jesus Christ.

There are Christian's who think they're living the Christian life but are not.

In John's day like in ours, believers involved in Gnosticism or other factions or cults, make false claims of living the Christian way of life.

Hatred of anyone, believer or unbeliever is a fast-track entrance into mental attitude arrogance which is only the beginning of a downward spiral to an extent that depends upon an individual's sin nature trends, lusts and personality make-up.

The end result of such hatred is always the same; permanent residence in the cosmic system which destroys the spiritual life of the believer and makes him an enemy of God.

While inside Satan's cosmic system with mental attitude hate, the believer fights himself but when he actively pursues an expression of that hatred, he becomes the enemy of God.

All we have to do is hear the Holy Spirit and recognize that a symptom is a sin and then we name it to God and we're in a position to recover.

As long as we are alive on this earth, recovery is possible through 1st John 1:9 but the longer we live in the cosmic system, the more difficult recovery is because we have to keep re-entering and re-entering, so there's a period of instability before we settle down.

So, motivation is a key factor for those who spend too much time in the cosmic system where it's easy to lose track of reality and prolonged residence in the cosmic system causes illusion to become hallucination, often resulting in permanent psychopathic or sociopathic issues.

It's impossible for anyone to be truly happy in this life as a believer; no matter what he has or what he's attained if in his soul, he doesn't have honor and integrity.

Nothing works in any of life's relationships without impersonal love.

And how do we demonstrate our love for fellow believers? We don't have any unkind thoughts about them, hate them or even dislike them so we're not antagonistic toward them or involved

in selfish competition with them and we recognize that they have a right to their own privacy. Impersonal love does something that society has never done; it establishes common ground between people of all ages, genders, backgrounds and even races.

Every satanic trap is a direct appeal to our personal free-will from the cosmic system, so none of these temptations originate from inside God's plan; they come from outside.

While in fellowship with Jesus Christ, we'll have many appeals from Satan's cosmic system and we can always say no; we'll never be tempted from inside the plan of God.

The plan of God that He invented can't become the source of sin, the excuse for sin, the basis for sin or even the means of temptation.

The believer involved in Satan's cosmic system has lack of impersonal love; therefore lack of integrity demonstrated by his hatred.

Walking as the Gentiles do or walking around in the darkness is an idiom for disorientation to the plan of God and failure to understand and apply it in the Church Age.

This is ignorance of the Christian way of life which is living and functioning inside the Church Age plan of God.

The Christian life is first, motivation from the filling of the Holy Spirit, then motivation from the integrity of impersonal love and finally motivation from enforced and genuine humility.

The faith application is faith in claiming the promises of God, faith in applying biblical rationales, the more complex doctrines and faith in forming biblical conclusions and being in control of the situation by maturely separating or facing people problems in life by switching focus from the problem to the integrity of impersonal love.

Success in the Christian life begins with personal love for God the Father and occupation with Jesus Christ and then the marriage relationship is sustained and then, we can have healthy families and friendships in advanced impersonal love with full knowledge and application of the RFHC.

At the point of spiritual maturity with the completion of the soul structure, we share God's happiness and receive greater-grace blessings that glorify TLJC to the maximum.

Life and function in the cosmic system means the believer doesn't know where he's going as his life has no direction or purpose, so only in the light of the will and the plan of God, walking in obedience to God's policies for the Church Age, is there any possibility for happiness.

Our only hope for happiness in this life is function inside the plan of God, walking in the Light, experientially abiding fellowship with Jesus Christ.

The cosmic system has blinded the eyes of the believer who hates his fellow believer which means his understanding of God and His will regarding the RFHC in the Church Age is invisible to him.
