

**1st John # 76**

**“Acknowledging that Jesus is the Son of God” Part 2**

***1st John 4:12-14***

**And invisible God has visible influence on and through us; so that although we cannot see God, we can see His influence in the lives of believers who abide in Jesus Christ demonstrated by their expression of Christ-like impersonal love so God’s invisible influence on our lives is clearly visible by our expression of true unconditional impersonal love inside the plan of God.**

**The supernatural power system provided by God the Father and sponsored by God the Holy Spirit, produces fantastic results in our expression of impersonal love so that God’s invisible influence on us becomes our visible impact on the world as an undeniable public testimony.**

**God abiding in us means that His love has been brought to full or complete maturity in us. The greatest impact on history since the day of Pentecost has been the ordinary believer who lives and functions inside the plan of God, advancing to spiritual maturity.**

**And when the power system doesn’t function, we’re told: ‘Don’t grieve the Spirit’ which is living and functioning in worldly passive arrogance and ‘Don’t quench the Spirit’ which is living and functioning in active hatred.**

**With God’s power system turned on, we generate honor, integrity and virtue toward all, which glorifies the Lord in our daily lives.**
