

“Doing Good” Part 7

3rd John 11

The four dimensions in Ephesians 3:18 emphasize the fact that God provided the mechanics and energy of tactical victory for every believer becoming a winner or invisible hero, following the example of the humanity of Christ during the Incarnation.

Jesus Christ handled every distraction to the spiritual life magnificently and our spiritual life is not taken from Age of Israel with the Mosaic Law; it's taken from the Incarnation and never has so much been given to any group of believers as that which has been given to us.

The width refers to the function of the defense line of the soul, made up of God's problem-solving devices which are designed to prevent the outside pressures of life from becoming the inside pressures of stress in the soul.

God has provided grace-solutions or problem-solving devices for all the injustice and unfair treatment in our lives.

It's our reaction to injustice that produces arrogance and emotional response from the lust pattern of the sin nature, such as misplaced anger and revenge.

Our Lord never reacted to any injustice against Him because He used the problem-solving devices provided for Him from the processed biblical truth circulating in His stream of consciousness.

In spite of all the injustice against Him, our Lord had perfect happiness through every adversity that life has to offer.

In eternity past, God the Father deposited in escrow, greater-grace blessings for you; designed to solve every problem in life; greater blessings than ever before for any Old Testament believer.

These blessings come from the justice of God as a matter of grace to the righteousness of God which indwells us and we do nothing to earn or deserve these blessings.

We are saved by grace, sustained by grace, live by grace and are blessed by grace.

These blessings are far superior to the living-grace-support blessings which sustain our normal daily life; being exceedingly abundantly above all we could ask or imagine.

Everything we have in life is borrowed except for what God provided for us in eternity past found in our spiritual bank accounts.

When we're learning God's truth under the filling of the Holy Spirit and then later when it's circulating in our stream of consciousness, this becomes time that is not borrowed but redeemed; Ephesians 5:16.

We're living on borrowed time every time we're not learning and using biblical truth; not making it #1 priority in life because time logged under the control of the sin nature is borrowed time from Satan, the ruler of this world.

On basis of scar tissue in the soul, a warped conscience with human viewpoint and lack of biblical truth in the human spirit or frame of reference, rationalization justifies sinful activities or blames God for all adversity in life.

One of the most common and subtle substitutes is escape into a dream world where you visualize in your

mind a place to retreat to where you can compensate for the frustrations, adversities and disappointments in life.

But there's a divine plan in which we can advance and even out-manuever Satan all the way; gaining victory in the devil's world and this plan is divine viewpoint biblical truth, so every battle in life can be won if we follow God's instructions.

The more biblical truth you know, the more you will find strength, comfort and power when facing the realities of life.

When we arrive at the place of maximum divine viewpoint, we become occupied with Jesus Christ and at that point, we have just moved into a place of perfect happiness and as long as we remain stabilized in that mental attitude, nothing can move us.

And that's not all; we become more attractive every second we look at life from the divine viewpoint giving us an inner beauty from the filling of the Holy Spirit in the greater-grace life.

When our spiritual skills are in place, our thinking skills are brought into our spiritual I.Q.

Spiritual skills must precede thinking skills for processing biblical truth.

Spiritual skills plus thinking skills cause us to withdraw God's grace-solutions from our spiritual bank account, which is the basis for our spiritual power and the production of divine good in the Christian life.
