A believer who is both a hearer and doer of the Word of God has the mind of Christ circulating in his stream of consciousness consistently and this practice works for him in every possible way that he could ever hope for. We really can't ever afford to let even one day go by without becoming something we weren't before, which is even better prepared to face the devil's world than we were yesterday. The fiercest attack upon God's grace is without a doubt all that's involved in religion; so, when Satan wanted to find a way to try to destroy the Christian way of life designed by the Lord God Himself, he came up with the concept of legalistic religion. Organized religion is the worst thing that ever happened to man. The glory and riches of God's grace eliminate religion from Christianity which is definitely not a religion because Christianity begins at the Cross by way of a personal decision to believe in Jesus Christ alone, thus forsaking all human works. Emphasis on man's external expression of human good to the exclusion of the God's internal expression of His grace in us is a devastating problem and this is all too common in a believer who doesn't know biblical truth or who fails to apply it if he does know it. Grace is the Christian way of life and the principle of rebellion is to willfully drift away from the grace of God and head in the direction of a self-righteous life. God in His amazing grace has provided the inspiration for the formation and preservation of the Scriptures and He also provides the omnipotence of the Holy Spirit inside the experiential plan of God to enable us to fully understand the execution of the plan. Faith perception converts Bible knowledge into Bible wisdom making available an opportunity for us to apply the mind of Christ to our circumstances and that's the basis for Christ-centered thinking in contrast to man-centered thinking
