The rebellious believer is subjective in his thinking, his opinions and his conclusions. The ministry of God the Holy Spirit in our processing of the Word of God is how we receive the mind of Christ into our souls. God opposes or resists means that He rejects anything and everything to do with the devil's kingdom. Humility refers to a spiritually mature believer who has subordinated himself to the plan of God. God's grace is greater than any problem we could ever face in life and any human viewpoint solution is no solution at all; God's divine viewpoint solution is the only effective solution. No one can truly give apart from freedom and God gives to us out of total freedom because of the Cross of Christ. Authority orientation is easy when, what God wants us to do is convenient for us but the acid test is when He wants us to do something we really hate to do, something our sinful natures are rebelliously rejecting. The way in which you are subordinate to God is the way in which you oppose the devil so that he runs away on the basis of Bible doctrine in your soul. Biblical truth in your soul is ultimately more powerful than the ruler of this world!
