

John 190 “Living, Breathing Proof” *John 12:6-11*

**Judas doesn’t care for the poor and if he had it his way, everyone would be poor except for him!**

Hypocrisy is always critical of anything that frustrates its own lustful desires.

*Our Lord’s disciples have temporarily become the ‘sub-disciples’ of one: Judas Iscariot.*

**Contagious criticism often lends itself to hyper-embellishment.**

Just because someone we admire and even respect says something, that doesn’t mean it’s true.

*For proper evaluation, we must first avoid an emotional rush to judgment and calmly begin by accurately gathering all the facts.*

And then our job, should we decide to accept it, is to discretely keep our mouths shut to others regarding the issue.

**When it comes to criticism, we must be very careful as to who does our thinking for us.**

Actually, to be critical of Mary’s attention to the Lord Jesus Christ’s death is to be critical of the Lord Jesus Christ’ death!

***NEWSFLASH:***

*The poor need eternal life much more than they need money for a better life here and now!*

**There’s quite a difference between being born equal and having equal opportunity throughout one’s life.**

However human government may try, it cannot make its constituents equal.

*Human freedom can be protected by human legislation but human equality cannot be.*

The problems of the poor are NOT solved by simply throwing money at them.

**We cannot eliminate poverty in the devil’s world, nor can we eliminate wealth here either.**

The only solution to poverty is a recognition of our spiritual bankruptcy before God, followed by a genuine expression faith alone in Jesus Christ alone; all made possible by His grace alone which is God’s simple formula for our success!
