

John # 45 “Light Has Come Into the World” *John 3*

Grace is the policy of God which supplies us with all that’s necessary to understand and apply His purpose and plan for our lives.

Grace means that God even provides the process or steps in which a systematic experiential relationship with Him might be implemented.

God’s plan is carefully organized and His system is such that any willing human mind can gain a deep understanding of His thinking.

And when we utilize God’s grace system (His way through His power) we begin to adopt the very mind of Christ.

The Holy Spirit teaches the attending positive believers in the congregation who receive the content of the pastor’s message into their human spirits for grace oriented and motivated processing.

All this is sponsored by TLJC Who sent the Comforter to fill the enormous gap He left after His ascension.

This process is designed by God for our encouragement over our discouragement, our grace-orientation over our religious works orientation, our objectivity of occupation with Jesus Christ over our subjectivity of self-pity and our discernment over our aimlessness.

So, ultimately, we all are taught by the Holy Spirit when we are positive and our job is to make ourselves available to the teaching of the Word and the Holy Spirit basically does the rest.

Processed biblical truth in the soul coordinates with the brain which is in the body, to produce a mental attitude in us which motivates us to properly worship God as we become familiar with Him and are filled with the Holy Spirit.

This worship from a totally renovated soul functions in harmony with the Word of God as an expression of personal love for God resulting in impersonal love toward man.

‘Renewing’ is removing the old and replacing it with the new: an indoctrination of biblical principles which re-orient our worldview and all this begins with a free-will choice to seek God and His Son’s mind which guarantees that we can easily understand what the will of God is!

In God’s marvelous grace system, the Holy Spirit stores spiritual information in our brain, the computer of our soul and that helps facilitate our keeping of our Loving Father’s commands to reject our old self-defeating behavior patterns and replace them with new Christ-like ones.

The choices we make determine the life we live.

Habits become habits mostly because they are the paths of least resistance.

As born-again believers, we must learn to grow up spiritually and when spiritual information

is processed, it is interpreted by the Holy Spirit in us so that we can academically understand it in our souls.

There we can make a free-will decision as to whether or not to accept this information as true or reject it as false.

If we choose to accept it when it's confirmed by the Holy Spirit as true, it becomes validated as divine viewpoint but how is it recalled?

By the brain, the computer of the soul which until death remains linked to the body.

When we trusted in TLJC as Savior and began to seek Him through His Word in bible class, His biblical principles began to facilitate our brand-new life with Him which is known as our walking in righteousness.

As believers in Jesus Christ, the source of our greatest frustration is when we go back to our old ways of coping with life oftentimes even though we know we shouldn't but when under pressure,

we do.

But if we can become among those that remain focused in spite of our circumstances, we will experience continued spiritual growth where eventually the path of righteousness actually becomes the path of least resistance!

This is what synchronizes our soul and brain to renew our thoughts facilitating us to overcome our pre-salvation detrimental habits.
