

John 184 “Let Him Go!” *John 11:41-44*

Success in the Christian life starts with an expression of positive response to God and His truth seen in regular consistent attendance at the local church where the Word of God is taught.

Believers in Jesus Christ are required to exercise maximum self-discipline in public Bible study through concentration on the message.

In many ways, the normal Christian life is the most difficult life to live because it has so few moments

of recognition, attention and genuine emotional stimulation.

You may be out of sight in the Christian community and you may not ever have worldly recognition but you are never out of God’s sight.

And while it’s true that we’ll remain relatively unknown to others, we’ll be well known to the opposition; Satan and his demons!

If we understand and apply these truths, we have an accurate perspective regarding our mission as believers in Jesus Christ and we’ll know for sure that Christian service is not what we do for the Lord but what the Lord’s grace does for and through us.

Man can recognize a hopeless situation but he can’t do anything about it for the long term.

To roll away the stone took a minimum amount of intelligence and a maximum amount of muscle.

Non-soul related activities cause people the most problems in life.

Soul involvement with the plan of God demands prior knowledge of biblical truth.

Confidence or assurance comes from recognition of God’s accomplishments from eternity past.

Spiritual power is the greatest power of all.

Freedom provides for privacy to flourish and privacy provides for freedom to flourish.

Believers grow most in maximum privacy of the soul where the relationship is best experienced between them and the Lord Jesus Christ.
