“Hope leads to Patience”

Romans 12:12 John 1:1-5,14

No one deserves a special day all to herself more than today's Mom. A cartoon showed a psychologist talking to his patient: “Let's see,” he said, “You spend 50 percent of your energy on your job, 50 percent on your husband and 50 percent on your children. I think I see your problem.”

Happy Mother's Day!

Hope is a confident expectation of something in the future.

Hope is a confident expectation of something in the future.

Because of a future reality, we can have a present positive attitude, so no matter how negative our circumstances are or how difficult things appear, we can have the absolute expectation of knowing that God has a plan for us.

We can be joyful in suffering because we know that God

has a plan for us and this is how we grow and glorify Him as He designed it for us so we can have joyful hope today because we understand what that means for us tomorrow.

Wrong; God often gives us what only He can handle and the only way we can bear it is to lean on Him and His power.

God's perfect plan of grace brings Him great joy and His grace is the expression of His joy and the source of our joy and hope.

If we're moving forward, it's on God's agenda; if we're looking backward, it's on our own agenda in self-justification, lying

to ourselves in self-deception and self-absorption leading to a miserable life.
